### BLM SEEKS INPUT FOR SEPTEMBER 2026 SALE OF OIL & GAS LEASES IN UTAH

The Bureau of Land Management opened a 30-day public comment period to receive public input on plans to include 35 oil and gas parcels totaling 34,596 acres in Utah in a September 2026 sale. **The comment period ends June 22, 2026.**

The BLM completed scoping on these parcels in April 2026 and is now seeking public comment on the parcels and related environmental analysis. The BLM will use input from the public to help complete its review of each parcel.

Leasing is the first step in the process to develop federal oil and gas resources. Before development operations can begin, an operator must submit an application for permit to drill detailing development plans. The BLM reviews applications for permits to drill, posts them for public review, conducts an environmental analysis and coordinates with state partners and stakeholders.

All parcels that are included in a federal oil and gas lease sale include appropriate stipulations to protect important natural resources. Information on current and upcoming BLM leases is available through the National Fluid Lease Sale System. BLM lease sales are held online through Efficient Markets.

The parcels BLM is analyzing, as well as maps and instructions on how to comment, are available on the BLM's ePlanning website at: <https://eplanning.blm.gov/Project-Home/?id=759276D6-511E-F111-8341-001DD800B811>

The BLM manages about 245 million acres of public land located primarily in 12 western states, including Alaska, on behalf of the American people. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. Our mission is to sustain the health, diversity, and productivity of America's public lands for the use and enjoyment of present and future generations.

### Canyonlands Health Care Special Service District/Grand County

**Request for Proposal (RFP) for Professional Services to Prepare a Master Plan for Eight Acres of Land Located in Moab City, Utah**

GC10026

The Canyonlands Health Care Special Service District (CHCSSD) is a public agency established to support and advance the continuum of healthcare needs for residents in Grand County, Utah. A key mission of CHCSSD is to ensure that the senior population of Grand County has access to high-quality health care, housing, and community resources at every stage of aging. The CHCSSD has been responsible for the development of the MAPS (Moab Area Partnership for Seniors) campus. Most of the property has been developed, and the remaining land is available to complete the MAPS master plan.

The MAPS campus is a 28-acre parcel of land located in the heart of the City of Moab. The campus was created to be a small mixed-use community that allows for Moab's aging population to age in place with access to health care and senior services. The campus currently includes the Moab Regional Hospital, the Canyonlands Care Center, the Grand Center (providing meals, recreational activities, events), and the MAPS Senior Apartments (36-unit mix income 1-2 bedroom apartments).

The remaining eight acres have yet to be developed with the vision of independent housing for seniors 55+ years and additional mixed-use opportunities that support aging in place by ensuring access to resources, services and experiences for older residents within the district. The mixed-use development includes commercial and residential parcels that can include retail, food/beverage services, and other types of services that will enhance the lives of senior independent living. The campus is intended to function as a small-scale retirement community for aging seniors, integrated into the broader community with clear multimodal connections to downtown Moab, nearby services, and adjacent properties that may support future expansion.

The selected team will prepare a comprehensive master plan for the remaining eight acres of the MAPS Campus. The plan will assist in campus development, grant applications, developer outreach, and a master plan that serves as a long-term guide for campus development and stewardship.

**Proposal should be received by 5pm on June 30, 2026** and be submitted online to the Utah Public Procurement Place (U3P - Bonfire), [utah.bonfirehub.com](http://utah.bonfirehub.com). Inquiries related to this solicitation should be submitted to the Public Q+A section of the listing in that portal, where answers will be posted for all prospective solicitors to see.

**Dianna Lee Giambruno**  
 1948 ~ 2026

**DIANNA LEE GIAMBRUNO**  
 a spirited and creative soul, passed away peacefully on March 26, 2026, in Salt Lake City, UT, at the age of 77.

Born on March 27, 1948, in Salt Lake City, Dianna lived a life marked by resilience, artistry, and profound connections

Dianna was the beloved wife of Jim Giambruno, with whom she shared 51 years of marriage. Their journey together began in Moab in 1973, a meeting that would become one of the most significant moments of her life. Together they built a life filled with love and adventure. In 1981, the couple took on the adventure of helping build a vacation home in Hawaii. Another major milestone in her life was when she was able to reconnect with her daughter DaVee Wayman in 1994. There were also trips to Europe, Alaska where she caught a 58 Lb. salmon, and Japan.

Dianna's creativity knew no bounds. She had a passion for crafts and excelled in pottery, jewelry-making, basket weaving, and later found joy in creating intricate stained glass pieces. Her artistic endeavors reflected her vibrant spirit and her ability to find beauty in every aspect of life. Her hands were always busy making something lovely. Family members loved receiving her gifts because they were always beautifully wrapped and contained something she had made.

Despite facing numerous health challenges throughout her life, Dianna's determination and zest for living never wavered. A defining moment came in 1997 when she received a heart transplant—a gift that allowed her to

continue embracing life with the same spirited energy that defined her.

She is survived by her loving husband Jim; her daughter DaVee; her sisters Michele Lindle and Laurie Krug; brother-in-law and sister-in-law Paul and Gina Giambruno; as well as nieces, nephews, cousins, and extended family members in Utah, Iowa and California. Dianna was predeceased by her parents Swede and Lou Maggard and her brother Brent Maggard.

Even in death, Dianna's generous spirit shines through. She arranged for her body to be donated to the University of Utah Medical School, wanting to give back to the medical community that had given her so much, especially those extra years after her transplant.

May those who knew Dianna find comfort in remembering her remarkable spirit and the joy she brought into their lives. Her legacy is one of strength, creativity, and an unyielding love for life.

**A CELEBRATION OF LIFE IS PLANNED** later in the year. Details will be shared with family and friends as they are finalized. In lieu of flowers, donations may be made to the American Heart Association (AHA)

## Everyday Wildfire Prevention

Most wildfires are caused by humans — many everyday things can create sparks. Keep ignition sources far away from dry vegetation, wood, and other fuel.

- Have a clear 10 foot radius around campfires, burning brush, etc. Never leave fires unattended, and always properly extinguish.
- Use grills/smokers on gravel or paved surfaces.
- Never toss lit cigarettes on the ground. Put ashes in a metal container with a tight lid.
- Keep water stored near campfires, fire pits, grills, smokers, burning brush, etc.
- Maintain vehicle brakes & tires, and secure tow chains to avoid dragging. Don't drive on dry grass or brush.
- Water your lawn & keep grass cut. Mow lawn early in the morning and when it's not windy or excessively dry.
- Always follow burn bans & regulations. Be aware of weather conditions. Low humidity, heat, drought and winds are conducive to fires.
