REMEMBER that food and drink commonly found at barbecues can be poisonous to pets. Keep alcoholic beverages away from pets, as they can cause intoxication, depression and comas. Similarly, remember that the snacks enjoyed by your human friends should not be a treat for your pet; any change of diet, even for one meal, may give your dog or cat severe digestive ailments. Avoid raisins, grapes, onions, chocolate and products with the sweetener xylitol.

ATTENTION:

Mill Creek Parkway Temporary Closure in Grand County Middle School CONSTRUCTION ZONE

WHERE: Beginning Aug. 10, the section of Mill Creek Parkway between 400 East and 300 South will be temporarily closed to the public.

WHY: Middle School construction crews will be working in that area so that section of pathway will be closed to protect the safety of the public.

WHEN: Construction in the area will likely last about two months. During this time, use of the pathway will be rerouted from 400 East onto 300 South where users can then cross the street and rejoin the pathway to the north side of 300 South.

STAY SAFE!
THIS IS A CONSTRUCTION ZONE

Grand County
Public Comment Survey:
Small Area Plan for Hwy 313 & US 191

The Grand County Council has tasked the Grand County Planning Commission and staff with developing a small area plan for the node around Hwy 313 and US 191. There is limited private property in the area, and there has been an increase in recent applications for development. The Grand County Planning Commission and staff are working hard to come up with a vision for this area that reflects the local community's desires. Due to COVID-19 concerns, we will not be holding in person meetings at this time, but there are numerous ways to have your voice heard, starting with the public comment survey online at <https://www.surveymonkey.com/r/SAP313>. Contact office at 435-259-1343 or e-mail planning@grandcountyutah.net with comments.

To learn more about the 313/191 area, please visit our website: <https://www.grandcountyutah.net/1092/Small-Area-Plan-Hwy-313US-191>

Public Comment Survey: Small Area Plan for 313/191

The Grand County Planning Commission and CEO Staff have been tasked with drafting a Small Area Plan for the Highway 313/191 node by the Grand County Council and seeks the public's feedback on how to best develop this space.

1. Overall level of development. Which of these comes closest to describing your preferred outcome for this area:

- Minimal future development. Currently undeveloped parcels will remain as they are currently zoned, a mixture of "Ranger and Grapple," "Resort Specific," and "Highway Commercial."
- Future development similar to recent. Currently undeveloped parcels would be allowed to develop similarly to adjacent parcels (tourist-oriented businesses, some housing, etc.).
- Enhanced future development. The list of allowed uses would be expanded somewhat, to include, for example, drive-through fast-food restaurants, higher density of housing, a large variety of retail business types.

2. Specific uses. Which of the following uses do you think should be allowed in this area? This is not an exhaustive list, rather, general use categories that could be appropriate for this area:

- Gas stations
- Truck stops
- Convenience stores
- Discount store/general store

REME HALO® Whole Home In-Duct Air Purifier

The award winning REME HALO® whole home in-duct air purifier is the next generation of indoor air quality (IAQ) technology and capable of purifying every cubic inch of air that your central air conditioning system reaches. Designed to eliminate sick building syndrome risks by reducing odors and air pollutants, the REME HALO® whole home in-duct air purifier is the best solution for whole house and building air purification.

Invented to recreate nature's process of purifying the air, it's like bringing fresh outdoor air inside without ever having to open your windows. And it's effective against all three categories of indoor air pollutants: Particulates, Microbial and Gases.

You can now reduce common allergy triggers from particulates such as pollen, mold spores, dander and dust. Thoroughly tested on airborne and surface bacteria & viruses, such as MRSA, e-coli, and Norwalk, to name a few. Say goodbye to odors from cooking, pets, dirty socks, diaper pails, and musty rooms.
